

# Joe's Story

- When I was in high school I was diagnosed with paranoid schizophrenia.
- I dropped out of school in the eleventh grade because I could not handle the pressure.
- I never worked and was arrested for several misdemeanors.
- I was referred to Keystone's Community Living Center program.
- The program helped me, and within the first year I decided it was time to turn my life around.
- Keystone assisted me with enrolling in a GED program and this past June I graduated.
- Since achieving my GED I have had the confidence to look for work.
- I attended Job Seekers and learned the skills I would need to obtain a job.
- I am currently working part time at my local grocery store.

Thank you Keystone!

Joe
